

# SCITEC NUTRITION®

FROM HYDROLYZED BEEF!

# 100% BEEF CONCENTRATE

\*100% OF PROTEIN FROM BEEF

NET WT: 1000 G

CARAMEL VANILLA  
FLAVOR

FOOD SUPPLEMENT

**Directions:** Mix 3/4 scoop in 250 ml water. Preferably use a shaker with a mesh screen and shake very well! Best time to use is after a workout. Use this product in conjunction with food as part of a healthy, balanced diet, not as a substitute for such.

Beef has legendary status among hard training, goal oriented athletes – many people experience better gains consuming this meat over chicken. So why not have beef protein shakes when quality powdered raw material is available?

Our 100% BEEF CONCENTRATE is a complete, hydrolyzed beef peptide protein manufactured from fresh beef raw material, a 100% natural product with no hormones used. It is an enzymatically hydrolyzed (virtually "predigested") beef protein, which means that its digestion and absorption will be fast.

A complete protein, such as ours, provides the body with all the necessary types of amino acids, including the 9 amino acids the body cannot synthesize and must be supplied by the diet (i.e. Histidine, Isoleucine, Leucine, Lysine, Methionine, Phenylalanine, Threonine, Tryptophan, Valine).

100% BEEF CONCENTRATE is a tremendous alternative to milk proteins, especially over controversial soy proteins! Obviously for many people lactose intolerance or even milk allergy can be a serious problem, while many others follow some degree of a paleo diet, where dairy products are excluded and meat protein sources are favored. (The beef raw material contains no lactose, but this product is manufactured in a facility that processes lactose containing milk products!)

Our beef protein has no added Creatine! Why tie your Creatine use and exact dosing (or lack thereof) to a protein product? Made no sense to us!

Many beef protein products suffer from bad taste! Our beef protein tastes great, try it for yourself!

Dietary proteins are the source of nitrogen and indispensable amino acids, which the body requires for tissue growth and maintenance. Therefore our 100% BEEF CONCENTRATE contributes to the growth and maintenance of muscle mass, and also to the maintenance of normal bones\*.

Aspartame free formula!
