

**DIRECTIONS:** Take 1-3 servings a day, before and after training, and at any other time like before going to bed.

The Branched-Chain Amino Acids (BCAA's) are an important group of essential amino acids consisting of Leucine, Isoleucine and Valine. The BCAA's are among the nine essential amino acids for humans, because our body can't manufacture them. Their only source is our daily food or food supplementation. On the other hand, they account for 35% of the essential amino acids in muscle proteins. Leucine, Isoleucine and Valine are indispensable amino acids provided by mixed dietary protein intakes from different sources. BCAA's can also be consumed as food supplements, especially suggested around intense workouts or physical work. Our BCAA 6400 formula contains a 2:1:1 ratio of Leucine, Isoleucine and Valine.

**Caution:** As with all exercise and nutritional programs, please consult your physician first. Keep out of the reach of children! Use this product as a food supplement only.

Store in a cool, dry place. Heat and sunlight may damage the bottle!

**Best before end:** see on packaging.  
**Batch number:** see on packaging.
