

DIRECTIONS: Mix 1 serving with 500 ml water. Drink a serving preferably right after training. Use this product in conjunction with food as part of a healthy, balanced diet, not as a substitute for such.

He's as big as a tank! That "he" can be you with the help of MUSCLE ARMY'S TANK!

Our formula is based on a 50%-50% fusion of high-quality milk proteins: our protein blend is half Whey Protein and half undenatured Micellar Casein (instead of denatured, lower quality Caseinate!) This makes TANK a more well-balanced, versatile formula. Dietary proteins are the source of nitrogen and indispensable amino acids, which the body requires for tissue growth and maintenance. TANK's protein contributes to the maintenance and growth of muscle mass and also to the maintenance of normal bones*.

TANK provides MicronTec Micronized Creatine Monohydrate that contributes to increases in performance in successive bursts of short, high-intensity exercise like weight training and all-out interval cardio.*

We also added – as an extra – the popular free amino acid L-Arginine in a nice dose, which is the precursor of Nitric Oxide (NO); and fortified TANK with 200 mg Vitamin C per serving (250% RDA)! Vitamin C contributes to the normal function of the immune and nervous systems, and to the reduction of tiredness and fatigue.* It also helps to maintain the normal function of the immune system during and after intense exercise: the beneficial effect is obtained with a daily intake of 200 mg – provided by 1 serving of TANK – in addition to the recommended daily intake of Vitamin C!†

That's not all, because the strength of TANK is that it provides Vitamin B6, Calcium, Potassium and Phosphorus as well, which contribute to*:

- normal muscle function
- regulation of hormonal activity
- maintenance of normal blood pressure
- normal energy-yielding metabolism
- reduction of tiredness and fatigue
- normal functioning of the immune and nervous systems
- normal protein and glycogen metabolism
- normal function of digestive enzymes
- normal red blood cell formation

Aspartame free product!
