

**DIRECTIONS:** Mix 30 grams with 300 ml water. The best time to use is after training. This is not a meal replacement product, use only as a food supplement.

SUPER 7 is a premium protein blend consisting of 7 types of quality, animal protein sources, including egg white protein and casein. It includes ultrafiltered milk protein isolate providing undenatured micellar casein and whey in natural ratio. Our formula also provides the patented PeptoPro® protein hydrolysate! PeptoPro® is enzymatically broken down so it mainly consists of small amino acid peptides ("chains"). SUPER 7 provides the complete amino acid spectrum, including all the essential aminos. These 9 amino acids (i.e. Histidine, Isoleucine, Leucine, Lysine, Methionine, Phenylalanine, Threonine, Tryptophan, Valine) are considered essential for life, because the body cannot synthesize them.

What's great about SUPER 7 is the addition of several extra ingredients. One group includes essential fatty acids, like Conjugated Linoleic Acid (CLA) and flax seed oil, which is a source of Alpha Linoleic Acid (ALA). In the other group of active ingredients, we have the digestive enzymes Bromelain and Papain! To top it all off, SUPER 7 is made without aspartame and has a superb flavor and creamy texture! It is also great for night-time use. SUPER 7 has a high protein-content and proteins contribute to the maintenance and growth of muscle mass and also to the maintenance of normal bones\*.

\*These statements have been authorized by the European Food Safety Authority.

Aspartame free formula!

**Caution:** As with all exercise and nutritional programs, please consult your physician first. Keep out of the reach of children! Use this product as a food supplement only.
